

AgriNext or Agricultural and rural excellence Incubator and Platform for the Exchange of competencies is an Erasmus+ project that aims to create a learning environment that responds to the skill demand on the job market in the field of agriculture.

Partners about AgriNext: BC Naklo and SKINK

"At BC Naklo, as the project coordinators of AgriNext, **we hold immense pride and enthusiasm for this project**, which stands as our largest undertaking thus far. Our team is deeply invested in the success and potential of AgriNext, and we are excited about the opportunities it presents. **We look forward to seeing the tangible outcomes of our hard work and the positive impact it will have on the community.** Our commitment to AgriNext reflects our dedication to

AgriNext: Milestones Achieved in Multifunctional Agriculture Education and Innovation

After 18 productive months and the first midterm review period, we celebrated the successful implementation of all planned project activities. Partners engaged in lively discussions about future endeavours, contributing valuable insights to shape the path ahead. We successfully performed a Guidance Service Model analysis and upgraded the pre-existing models, which operate in the field of Multifunctional Agriculture that responds to the rapidly changing job market

AgriNext at COVE Forum 2023

The AgriNext consortium participated at the 2023 Forum on Vocational Excellence 2023. Partners from Technological University of the Shannon, Veleučilište u Karlovcu, IES Galileo, Skink and BIOTEHNIŠKI CENTER NAKLO networked, took part in workshops, and learned about the Dutch VET system. On Monday, 25th of September partners visited multiple VET centres in Netherlands to learn how they all connect in a network called “Katapult” and on Tuesday, 26th of September they
