

AgriNext or Agricultural and rural excellence Incubator and Platform for the Exchange of competencies is an Erasmus+ project that aims to create a learning environment that responds to the skill demand on the job market in the field of agriculture.

What AgriNext Partners say about the project

Dr Anthony Oyeogbe, TUS: "The central focus of the AgriNext Project is the business incubator, designed to foster a dynamic and collaborative learning environment. Beginning in July 2025, the newly established AgriNext incubators in Slovenia, Spain, Croatia, and Ireland will provide practical training, mentoring, and networking opportunities for students, farmers, and aspiring agripreneurs, equipping them with the skills needed to establish economically viable,

We're Delighted to Announce: Our Second Promotional Video is Now Live

We are excited to announce the release of our second promotional video, highlighting one of the AgriNext Project's key goals: the development of a **Flexibilization Model for Vocational Education and Training (VET)**. Symbolized by a sunflower, this model promotes collaboration among experts, schools, teachers, learners, and social partners to remove barriers and create new opportunities in education and training. In this video, AgriNext partners also share valuable insights and
